

Sam Larcombe Tee

sl2110@cam.ac.uk

Education

University of Cambridge

Oct 2022 – Present

MSci (Integrated Master's) in Physics

First Class Honours (72%) in the BA component (completed June 2025)

Selected Projects

- **Research Review:** *Physics and Modelling of Laminar-to-Turbulent Flow Transition* — Review of the existing literature on the theory behind flow transition and CFD models used in simulation of flow transition.
- **Computing Project:** *Multi-Spin Encoding for Ising Models* — Implemented and tested multi-spin encoding techniques, focusing on memory and performance improvements.

Full transcript is available on request

Technical Skills

- Proficient in Python programming, particularly using numpy, scipy and matplotlib
- Linux/UNIX experience
- Git version control experience

Job Experience

STEM SMART Mentor

STEM SMART Nov 2023 – Apr 2024

- Provided guidance on university application and life to group of mentees
- Improved preparation and delivery of slides in order to boost engagement and understanding

Tutor

Freelance 2022 – Present

- Provided academic support in physics, chemistry and mathematics to A-level students.
- Enhanced communication and organisational skills
